RIDAY-

Social Annoyance

From a hygienic standpoint social annoyance is getting serious, since the strain on both the body and the mind requires constant physical attention. Cartainly nothing is more annoying to a refined person than offensive perspiration or body odors. Those who have used Tyree's Antiseptic Powder know it to be the one remedy which never disappoints. For general uses—dependable in all cases—it should be in every household.

Dr. M. S. Chartier, of the Familia de Bartie.

Dr. M. Z. Chartier, of the Faculte de Paris. Pr. M. Z. Chartier, of the Faculte de Paris, Prance, said: "If there is a very unpleasant affection and hard to cure at that, it is surely these conditions." He also says, "there are so be found in the drug stores many preparations containing boracic acid and talcum. These preparations, generally used in a dried state, have the great inconvenience of clogging the pores of the skin. This is not the case with Tyree's Antiseptic Powder, as it acts as a decodorizing, stimulating agent. We attention deodorizing, stimulating agent. My attention was called to this fact while attending several cases of severe inflammation produced by Poison Oak. While no other remedy would give relief, Tyree's: Antiseptic in the proportion of two teaspoonfuls to a pint of water aliayed the intense pain in a comparatively short space of time."

This preparation is sold in boxes at twentyfive cents and one dollar, by the manufacturer, J. S. Tyree, Chemist, Inc., Washington, D. C.

JAPAN INTERESTED IN **AUSTRALASIAN AFFAIRS**

An article in the Auckland Star indicates somewhat the line of policy that is marked out by Japanese interests in this part of the world. Imports from Japan are increasing very rapidly. During the last few months in representatives of leading houses in New Zealand have been sent to Japan to study the conditions with the idea of opening up very much closer commercial relations with Japanese manufacturers. The newspaper article mentioned states in part:

spent some time in touring Australia, and County Clerk's Office. and who is at present in Auckland, intends to leave shortly for Japan. He is emphatic in urging upon his own government and those of Australia and New Zealand the extreme necessity for combination and organized effort in maintaining the trade of the Pacific. He favors sustained striving 'for the betterment of the people directly interested in the Pacific-Americans, Australians, New Zealanders,

and Japanese.' "I have heard much of New Zeacointment to the reserve camps and land's wealth in minerals,' said this merchant, 'and it is fitting to point out that Japan needs zinc and copper perhaps more than any other metals at the present time. Her supplies of iron are obtained from China-three days' sail from Japan, so that the freight on this import is not very

With a large amount of lumber already on the ground and more being rapidly sent out, the work of erecting quarters for the surveying party at Kaneohe is under way and the first step towards permanently paving the belt road is fast taxing shape.

While the \$500,000 which the legislature appropriated for the work is not yet available, the city and county has advanced \$10,000 in order than the work may not be delayed and it is hoped that when that is used up the larger amount will be ready. The \$10,000 is exclusively for the

surveying of the route which will be pushed forward as fast as possible Everything to facilitate the progress of the work is being done, including the furnishing of transportation for, the party in order that they may work from early dawn until dark. Two buildings are to be erected, one

for the chief and the other to be used as an office, dining room and kitchen, while the second floor will be the sleeping quarters.

The principal problem in the matter of construction which will have to be solved is the supply of rock. The rock in the Koolaupoko district is of a poorer quality than is generalfound elsewhere, with the result that the plans and specifications will have to be changed to meet the situation. A relocation of the road will also have to be made across the Alea swamp, it is expected. Nothing of a definite nature, however, can be planned until the survey is completed.

The gramaphone-John, I'm going o bed. See that you shut up everything for the night.
